

ACCESSIBILITY PLAN

For the 3-year period 2019 - 2022

**Incorporating:
Curriculum Plan
Physical Environment Plan
Plan for Written Information**

The SEN and Disability Act 2001 extended the Disability and Discrimination Act 1995 to cover education. Since September 2002 the Governing Body has several duties towards disabled pupils under part 4 of the DDA.

Principally this involves the production of a policy and plans whose aims are to increase access to education for disabled pupils of all kinds. As a result of this The Vine Christian School has produced an Accessibility Plan to cover a 3-year period, which will be periodically reviewed by the Governing Body to ensure that it conforms to all parts of the above Act.

Specific elements of the plan and its annual reviews may require consultation with individuals or representatives from external agencies in order to ensure their effective implementation. We will look to conduct future reviews of the Accessibility Plan in consultation with the Governing Body and the pupils, parents and staff of the school.

This initial plan covers the period from January 2019 – August 2022.

Where we have students who have specific requirements, we would meet their accessibility requirements in line with the DDA. Student specific information would be recorded within school and would be made available to appropriate parties when required but would not be published for reasons of confidentiality.

VISION AND VALUES

At The Vine Christian School, we are committed to providing a fully accessible environment, as far as is reasonably practicable, which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are further committed to challenging attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

The Vine Christian School plans to increase the accessibility of provision for all pupils, staff and visitors to the school, in the three areas required by the planning duties in the DDA. The following areas will form the basis of the Accessibility Plan with relevant actions to:

- Increase access to the curriculum, including educational visits.
- Improve access to the physical environment of the school;
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities.

We also plan to improve the gathering of information through questionnaires etc. From staff, parents, carers and students

PRINCIPLES

Our responsibilities under DDA can be summarised as follows:

- Not to discriminate against disabled pupils in our admissions and exclusions or the provision of education and associated activities.
- Not to treat disabled pupils less favourably.
- To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage.
- To publish an Accessibility Plan.

IMPROVEMENT TO THE PHYSICAL AND LEARNING ENVIRONMENT

An Action Plan relating to these key aspects of accessibility will be drawn up with consultation between the Governing Body and the Staff at the school. We will look to involve disabled people in identifying priorities and barriers where possible. We will also use any information gained from students, parents or carers. It will be in place by the end of this three-year period and will be reviewed and adjusted on an annual basis.

MANAGEMENT, COORDINATION AND IMPLEMENTATION

The school will endeavour to identify any disabled people, whether staff, students or parents and to collect information when recruiting and selecting new staff via a confidential staff questionnaire and we will give existing staff the opportunities to raise personal issues.

It is acknowledged that there will be a need to raise awareness and train all staff and governors in the matter of disability discrimination. The plan indicates time frame for achievement and which persons are responsible for the implementation and coordination of various aspects of the plan.

To be able to collect information on the disability of new students the admissions enquiry form will be adapted to ask if the child has any learning difficulty, medical condition or disability.

During the admissions process all new parents/carers will be asked to complete a short questionnaire detailing any disability or health condition they might have so that we can cater for them adequately when visiting the school. All information would be dealt with confidentially.

This Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Equal Opportunities
- Health & Safety
- Whole School Behaviour Policy
- School Improvement Plan
- School Prospectus
- Admissions Policy

MONITORING AND REVIEW

While the Governing Body is ultimately responsible for the implementation of the plan and for reviewing it regularly by means of reports from the Head Teacher, the management and monitoring of the plan will fit in with the existing management and school development planning systems.

The school will make it known in the Parents Handbook that the plan is available on request and in several formats if required, subject to appropriate notice being given.
